PROGRAMME OUTCOMES, PROGRAMME SPECIFIC OUTCOMES AND COURSE
OUTCOMES

2.6.1 Programme outcomes, programme specific outcomes and course outcome for all programmes offered by the Institution are stated and displayed on website and communicated to teachers and students

Programme Outcomes	
Degree Programme	Outcome
Bachelor of Arts (B.A.)	<p>After completion of the programme, the students will develop ability:</p> <ol style="list-style-type: none"> 1. To understand knowledge in the field of Arts and Social Sciences. 2. To be Honest, cultured and good citizens with social consciousness. 3. To get earning opportunities through employment and self-employment. 4. To understand fundamental Human values. 5. To improve communication and soft skills. 6. To make all round personality development.
Bachelor of Commerce (B. Com.)	<p>After completion of the programme, the students will develop ability:</p> <ol style="list-style-type: none"> 1. To understand the basic principles of business management and administration at the conceptual level. 2. To acquire up-to-date techniques of Business communication and correspondence. 3. To familiarize with the day-to-day requirements in the field of Accounts, Finance, Marketing, Costing, Co-operation, Insurance and Banking. 4. To calculate taxable income and tax liability. 5. To acquire the knowledge of business and mercantile law. 6. To develop confidence for doing job. 7. To acquire the skills required for job.
Bachelor of Science (B. Sc.)	<p>After completion of the programme, the students will develop ability:</p> <ol style="list-style-type: none"> 1. To develop rationality and scientific temperament 2. To acquire general grasp of science and technology 3. To understand the scientific terms, concepts, facts, phenomenon and their interrelationships 4. To develop necessary skills required for designing, recording and analyzing the results of experiments 5. To develop analytical skills to tackle real life problems 6. To apply their knowledge in industry and self-employment

Programme Specific Outcomes

Programme	Outcome
B.A. in English	<p>After completion of the programme, the students will develop ability:</p> <ol style="list-style-type: none"> 1. To develop command on written and spoken English. 2. To know about culture and society 3. To understand global culture 4. To acquire appreciation of films and fine arts 5. To develop familiarity with the language of administration and Business Correspondence 6. To apply language for maintaining good personal relations in society 7. To learn skills of translating from regional language to other languages and vice-versa
B.A. in Marathi	<p>After completion of the programme, the students will develop ability:</p> <ol style="list-style-type: none"> 1. To acquire the facility in the use of Marathi language 2. To make use of Marathi for creative writing 3. To improve their skill of reading Marathi 4. To use the standard and colloquial Marathi for communication 5. To produce valuable knowledge in Marathi
B. A. in Hindi	<p>After completion of the course, the students will develop ability:</p> <ol style="list-style-type: none"> 1 To make use of Hindi for communication 2. To understand Hindi language 3. To acquire command over the use of Hindi for creative writing 4. To understand the contribution of different authors to Hindi literature 5. To spread the knowledge of the national language among others
B. A. in Political Science:	<p>After completion of the course, the students will develop ability:</p> <ol style="list-style-type: none"> 1. To understand the history of political ideology and political thoughts from ancient to the modern age. 2. To understand the major political systems in the world. 3. To understand the dimensions of international politics. 4. To interpret the role of the regional and international organizations in the new world order. 5. To understand and realize the importance of voting rights, active participation of citizens in political and administrative systems 14. To realize the importance of scientific approach in social sciences.

<p>B. A. in Psychology:</p>	<p>After completion of the course, the students will develop ability:</p> <ol style="list-style-type: none"> 1. To make use of Science and practice of psychology at the local, regional and national levels for innovative scholarly contributions and for rigorous preparation of critical thinkers, future scientists and practitioners 2. To apply and critically evaluate the ideas, theories and research findings within psychology. 3. To develop and practice oral, written and interpersonal communication skills. 4. To prepare themselves for graduate study and /or entry level work in the social services. 5. To prepare themselves for professions, other than psychology and the social services that require an understanding of human behavior. 6. To learn to integrate psychology theories and research findings professionally and personally.
<p>B. A. in Economics</p>	<p>After completion of the course, the students will develop ability:</p> <ol style="list-style-type: none"> 1. To understand the behavior of Indian and world economy 2. To understand how to become entrepreneurs 3. To evaluate, compare and solve our economic problems. 4. To understand the basic concepts of economics. 5. To understand the behavior of money market, product market and labour market of our country.
<p>B. A. Geography</p>	<p>After completion of the course, the students will develop ability:</p> <ol style="list-style-type: none"> 1. To relate global level situation to local level. 2. To acquire scientific temperament and respect diversity in the world. 3. To be good planners and environment conservators. 4. To align research methodology with recent technology 5. To understand concepts in Human and Physical Geography. 6. To be acquainted with the man and environment relationship and the basis of Human development. 7. To understand the problems, modern technology, changing cropping patterns in agriculture. 8. To acquaint themselves with the distinct dimensions of India. 9. To understand the economic setup of the country. 10. To evaluate the geo –political issues in the world with special reference to India 11. To make themselves aware of the magnitude and nature of problems & Prospectus of national & state level on geographical basis. 12. To acquire the knowledge of regional resources. 13. To familiarize themselves with the different cartographic techniques and methods used for representation of demographic and physio-socio-economic database. 14. To learn basic information about Aerial Photographs, Remote Sensing, GIS and GPS.

B. A. History	After completion of the course, the students will develop ability: 1.To understand the major developments in India 2.To make use of the knowledge of History in various career opportunities, personality development and in developing self-employment too. 3.Critical and comprehensive understanding of the past for facilitating the present in the sphere of socio-political, economic, cultural life by developing objective attitudes. 4.To develop socio-religious, culturally harmonious environment and tolerance by inculcating moral, ethical, democratic values through historical events and examples
B. C. A.	After completion of the course, the students will develop ability: 1. To understand the basic knowledge of programming skills. 2. To improve personality development skill, ability skill and knowledge skill. 3. To understand basic Accounting and Management knowledge. 4. To develop software Applications. 5. To develop communication and leadership skill. 6. To work with team spirit.
B.Sc. in Chemistry	After completion of the course, the students will develop ability: 1. To understand the various concepts in chemical science 2. To develop necessary skills required for designing, recording and analyzing the results of chemical experiments 3. To apply their knowledge in chemical and pharmaceutical industry
B.Sc. in Physics	After completion of the course, the students will develop ability: 1. To study the basic laws of nature 2. To develop rationality and scientific temperament 3. To obtain industrial skills required such as measurement of angle, length, temperature, current, voltages and other measurement of various physical quantities 4. To develop essential physical skill required for the Quality Control in the Production Industry 5. To learn basic knowledge required for further Higher Education (M.Sc., MCA) 6. To acquire general grasp of science and technology
B.Sc. in Zoology	After completion of the programme, the students will able to 1. To understand the scientific terms, concepts, facts, phenomenon and their interrelationships 2. To develop skills and awareness about Socio-economic concepts like fishery science, Apiculture, Sericulture, Poultry Science, 3. To apply the subject knowledge for Environmental awareness and conservation 4. To develop skills required for Medical, Pharmaceutical, Forensic, Forest services 5. To develop skills and abilities in practical work and laboratory experiments

B.Sc. in Mathematics	<p>After completion of the course, the students will develop ability:</p> <ol style="list-style-type: none"> 1. To think in a critical manner. 2. To know when there is a need for information, to be able to identify, locate, evaluate, and effectively use that information for the issue or problem at hand. 3. To formulate and develop mathematical arguments in a logical manner. 4. To acquire good knowledge and understanding in advanced areas of mathematics 5. To understand, formulate and use quantitative models arising in social science, business and other contexts. 6. To develop capacity to learn and apply mathematical ideas for further higher studies or research work
B.Sc. in Statistics	<p>After completion of the course, the students will develop ability:</p> <ol style="list-style-type: none"> 1. To develop analytical skills to tackle real life problems 2. To have a sound foundation in the statistics fundamentals 3. To learn different softwares useful for statistical analysis 4. To be a successful data analyst, research officer, etc.
B. Sc. In Botany	<p>After completion of the course, the students will develop ability:</p> <ol style="list-style-type: none"> 1. To know and identify flora from their own environment. 2. To identify and study the use of medicinal plants. 3. To study large and small aquatic plants especially microscopic algae with the microscope. 4. To develop their own firm to sell the different types of plants which have great demand in different colleges and universities. 5. To acquire knowledge about some plants as some plants are drought indicators, some, rain indicators and some, water indicators.

Certificate Course Programme Outcomes

Program	Outcome
Certificate Course In Horticulture Science	<p>After completion of the course, the students will develop ability:</p> <ol style="list-style-type: none"> 1. To acquire some extra knowledge in addition to Botany 2. To learn the importance of some important horticultural crops 3. To start their own business in horticulture in the nursery 4. To use different types of flowers in the decoration and hair adornment and in marriage ceremony. 5. To earn more money through greenhouse technology.
Certificate course in Sericulture	<p>After completion of the course, the students will develop ability:</p> <ol style="list-style-type: none"> 1. To understand the importance of sericulture as a cottage industry 2. To acquire the scientific techniques of rearing silk moth 3. To develop scientific knowledge of cultivation of mulberry, rearing technique, ideal conditions required for rearing 4. To have awareness about scope and significance 5. To acquire the scientific knowledge and expertise about sericulture in rural area 6. To develop the facility of technical services regarding sericulture
Certificate Course in History for competitive Examinations	<p>After completion of the course, the students will develop ability:</p> <ol style="list-style-type: none"> 1. To study socio-political, economic and cultural heritage of Nation. 2. To develop critical understanding and making responsible citizens by analyzing contributions of freedom fighters, political leaders, philosophers, social reformers, economic thinkers etc. 3. To develop understanding of social welfare schemes and services 4. To inculcate moral, ethical, democratic values through different themes of history.
Certificate Course in Economics for competitive Examinations	<p>After completion of the course, the students will develop ability:</p> <ol style="list-style-type: none"> 1. To study economic scenario of Nation. 2. To understand the function of market and prices as allocative mechanisms 3. To learn the use of benefit/cost analysis 4. To develop critical understanding to make responsible citizens by analyzing economic policies 5. To identify limits of economic analysis 6. To inculcate economic values through different themes of economics.
Certificate Course in How to Write Application	<p>After completion of the course, the students will develop ability:</p> <ol style="list-style-type: none"> 1. To understand language rules of Marathi, Hindi and English languages 2. To acquire basic vocabulary of Marathi, Hindi and English languages 3. To write circumstantial applications 4. To enhance writing skills in Marathi, Hindi and English languages 5. To use proper punctuation in Marathi, Hindi and English languages

Short Term Course I.T. in Learning English	After completion of the course, the students will develop ability: <ol style="list-style-type: none"> 1. To open email account in Outlook & Gmail 2. To open Twitter account 3. To write emails about syllabus to the teacher 4. To write emails about notes to the teacher 5. To acquire skills to write Tweets, Follow Twitter accounts, retweet tweets
Capsule Course in C⁺⁺ Programming	After completion of the course, the students will develop ability: <ol style="list-style-type: none"> 1. To acquire the basic knowledge of C⁺⁺ Programming 2. To understand the importance of C⁺⁺ language in computer programming 3. To understand the essence of higher order programming with C⁺⁺ language 4. To develop the programme of the problems related with the respective subject
Certificate course in Land Record and surveying	After completion of the course, the students will develop ability: <ol style="list-style-type: none"> 1. To understand distinct dimensions of Land Record. 2. To acquire the importance of land and Property laws. 3. To realize recent land record system. 4. To recognize the process of agricultural land heir registration and its distribution. 5. To cope up with the importance of field work & advanced Techniques in Land Surveying. 6. To do map making and area calculation. 7. To interpret the map
Certificate course in M.S.Excel	After completion of the course, the students will develop ability: <ol style="list-style-type: none"> 1. To create and design a spreadsheet for general office use. 2. To demonstrate the use of basic functions 3. To draw different charts for visualization of data 4. To use built functions of statistics
Certificate course in Soil and Soil Testing	After completion of the course, the students will develop ability: <ol style="list-style-type: none"> 1. To identify the types and chemical properties of soil 2. To apply the subject knowledge to spread awareness among farmers and to guide them for soil conservation 3. To develop skills required for soil testing 4. To develop competence in practical work and laboratory experiments
Certificate course in Practical Banking	After completion of the course, the students will develop ability: <ol style="list-style-type: none"> 1. To understand the present banking system 2. To acquire advanced knowledge about the changing practices in banking 3. To develop skills required for banking 4. To undertake basic banking transactions

Certificate course in Library Management	After completion of the course, the students will develop ability: <ol style="list-style-type: none"> 1. To work as a librarian in public libraries and a library assistant in academic libraries 2. To get advanced knowledge in information technology 3. To acquire and implement the knowledge of administration and management of library 4. To organize the recorded knowledge and information 5. To develop leadership quality and service attitude
Certificate course in Personality Development	After completion of the course, the students will develop ability: <ol style="list-style-type: none"> 1. To understand the nature of human personality 2. To understand the difference between the inherited and non-inherited aspects of personality 3. To improve the skills of reading, writing, listening and speaking 4. To communicate with the peer group and the authorities 5. To make presentations before the audience
Certificate Course in R Software	After completion of the course, the students will develop ability: <ol style="list-style-type: none"> 1. To learn installation and configuration of R 2. To access and read data 3. To access packages in R 4. To write programs in R
Certificate Course in Counseling and Life skills Management	After completion of the course, the students will develop ability: <ol style="list-style-type: none"> 1. To understand goals of Counseling and Psychotherapy 2. To comprehend ethical considerations and future prospects of counseling 3. To learn about different types of counseling 4. To evaluate affective, cognitive and Behavioral skills 5. To use life skills in various areas of life 6. To find new ways of thinking and problem solving
Certificate Course in Basic Beauty Culture	After completion of the course, the students will develop ability: <ol style="list-style-type: none"> 1. To improve inherent Artistry 2. To generate self-employment 3. To make all round personality development.
Certificate Course in Fashion Designing	After completion of the course, the students will develop ability: <ol style="list-style-type: none"> 1. To improve inherent Artistry 2. To generate self-employment 3. To make all round personality development. 4. To generate employment opportunities

P. G. Programme Outcomes

Programme	Outcome
M.A. in Economics	<p>After completion of the course, the students will develop ability:</p> <ol style="list-style-type: none"> 1. To face any competitive exam like M.P.S.C., U.P.S.C., I.B.P.S., P.O., I.F.S. etc 2. To determine economic variables including inflation, unemployment, poverty of India, G.D.P., Balance of payments using statistical methods 3. To master the general ability of analyzing economic issues and problems 4. To understand the behavior of financial and money markets and perform cost benefit analysis for making investment 5. To understand the banking system of the economy
M. A. in English	<p>After completion of the course, the students will develop ability:</p> <ol style="list-style-type: none"> 1. To write and speak English correctly 2. To understand culture and society 3. To learn democratic principles and language of law and governance 4. To understand global culture 5. To appreciate films and fine arts 6. To apply the knowledge of language in learning other foreign languages 7. To apply the knowledge of language in acquiring higher status in the society
M. A. in Marathi	<p>After completion of the course, the students will develop ability:</p> <ol style="list-style-type: none"> 1. To acquire the facility in the use of Marathi language 2. To make use of Marathi for creative writing 3. To improve their skill of reading Marathi 4. To use the standard and colloquial Marathi for communication 5. To produce valuable knowledge in Marathi
M. A. in Hindi	<p>After completion of the course, the students will develop ability:</p> <ol style="list-style-type: none"> 1. To prepare for the examinations like NET/SLET 2. To make use of Hindi language for getting employment 3. To prepare for competitive examinations 4. To appreciate Hindi literature 5. To inculcate moral values in order to strengthen the society
M. Com.	<p>After completion of the course, the students will develop ability:</p> <ol style="list-style-type: none"> 1. To understand the concepts of co-operation and co-operative movements 2. To acquire the knowledge about market, marketing information system and transportation in 21st century 3. To learn the basic management concepts and process 4. To acquire the knowledge about the modern trends in the management 5. To apply the techniques of micro and macro-economics for decision making in job/business 6. To understand the concepts and procedures in cost accounting system and make use of expert knowledge of costing data for decision making and control 7. To acquire research skills

M. Sc. in Chemistry	After completion of the course, the students will develop ability: <ol style="list-style-type: none"><li data-bbox="509 226 1484 296">1. To acquire in-depth knowledge of various terms, facts, concepts, processes, techniques and principles in chemical science<li data-bbox="509 296 1382 331">2. To acquire advanced knowledge of chemistry and its developments<li data-bbox="509 331 1419 401">3. To work in industry and research institutes using knowledge related to chemistry
